COMPANY INTRODUCTION

Thank you for visiting us. I am CEO Woo Chung-gi of Dongwon Knit Co., Ltd.

Dongwon Knit has been recognized as one of the leading manufacturers and sales companies of knit fabrics in Korea, which derived from the reputation of providing constant quality of fabrics and technicians' distinctive knitting skills which stacked up for more than 20years.

Based on our over one million yearly production capacity, we have been supplying high quality Tricot and Double Raschel fabrics to our local buyers since 1997.

Our main items are composed of Knit fabrics especially for **tricot velvets, meshes, and Faux furs.**
For **tricot velvet fabrics**, we are currently running **designed burnouts, plain stripes, and metallic stripes** as major finishes.
In terms of **meshes**, we have settled down **design meshes (stripe, plaid, etc.) and various burnout patterns** as our main stream theme.
Our tricots fabrics are mainly used for **garments, home decorations (such as curtains), or industrial usages.**

In addition to tricot fabrics, we supply fine quality **Faux furs** as well.
Our faux furs centrally modified in **toy industry**, but also can be applied in **F/W garments and home furniture industry.**
We have four types of pile length faux furs which are **7mm, 10mm, 15mm, and 23mm**. we applied various finishing technic in our products. You can check out our skillful finishes on our product catalogue.

For research and development aspect, our technicians and quality assurance executives are doing their best to invent new items and upgrade quality of current items to go one step ahead from other global competitors. In result of such attempts, our fabrics are acknowledged by many domestic buyers in its quality, and now we are stably supplying our products to many local buyers which allow us to achieve average annual sales of about KRW 5 billion (approximately USD4.3million) in recent few years.

In 2015, we established our Kyunggi branch office in the city of Yangju, one hour drive by car from Seoul, to manage fabric processing procedures and communicate with our local buyers more efficiently.

Currently, we are preparing for direct export for responding quickly to global market demand and also expanding our potentials to the world. Although we have a little direct export experience, we are sure that we will be a your great supporter for your success. This would be possible as we supply consistent quality of goods in timely manner.

Finally, we appreciate for your interest to Dongwon Knit. We will do our best to become a global textile company with our motto of "customer-oriented management"
