CONTENTS

I、Enterprise profile

II、Leading Product

- 100% polyester sewing thread

Ⅲ、Company advantages

- Technical advantage
- Quality advantage
- Production advantage

Ⅳ、Transit Options/time

》 Leading Products

弘曲线业
HONGQU THREAD

- 100% spun polyester yarn for sewing thread
- yarn count:11s-83s

》 Overview

弘曲线业
HONGQU THREAD

Enterprise profile

- Based in Yibin, Sichuan Province, Yibin Hongqu Thread Co., Ltd. has invested CNY 2 billion to build a 500,000 spindles of high-end sewing thread factory.
- This is another large manufacturer for high quality level following the 100,000-spindle's manufacturer --Shenyang Xinquhongqu Textile Co., Ltd by the same investor.It is the first and pioneering intelligentized plant for high-end sewing threads in China and even the world.

》 Technical advantages

弘曲线业
HONGQU THREAD

Intelligent detection and intelligent spinning equipment with single eye and single spindle

1、Success rate of taking and releasing tubes and accuracy of automatic head generation are close to 100%

JWF1458Automatic doffing roving frame

2、When yarn breaking is detected, roving feeding can be stopped immediately

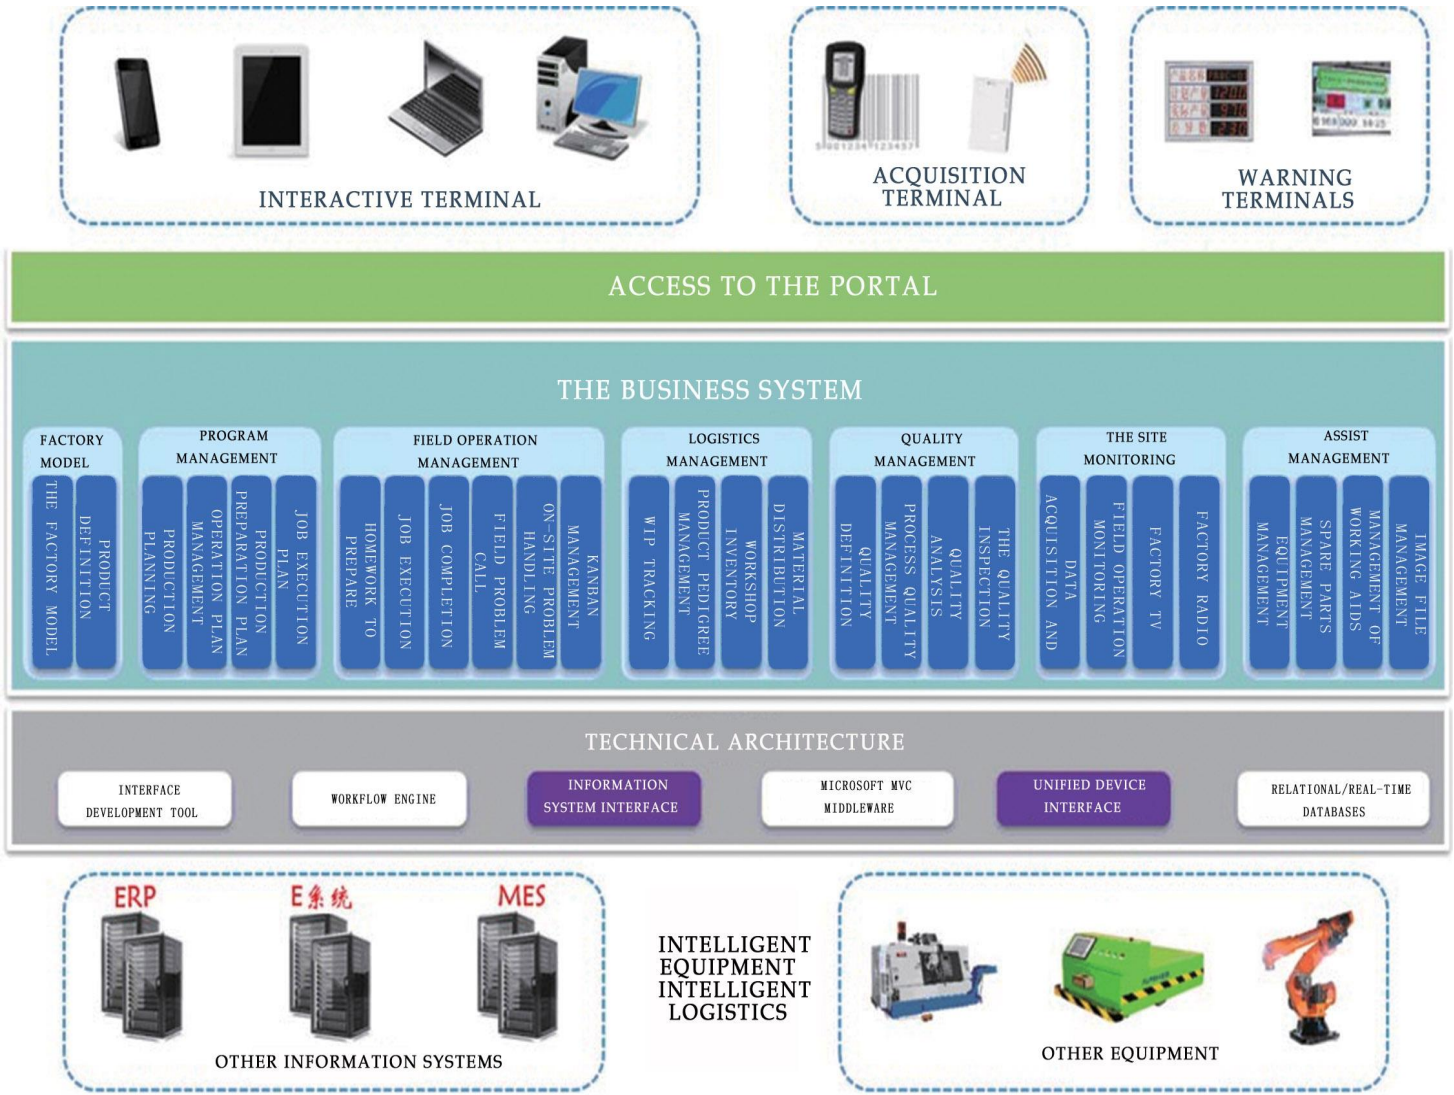

JWF1566-1200 Collapse spinning frame

3、Meet the customer from 6 to the highest count of yarn spinning requirements

QPRO-EX Automatic Winder

Smart factory

Systematic

- Integrate domestic equipment and imported equipment and ERP system into E system to achieve a high degree of integration of online production and operation control, such as intelligent sensing, network control, online detection, quality traceability, fault diagnosis, remote operation and maintenance

Smart factory

弘曲线业
HONGQU THREAD

Automation

Automatic cotton grabber

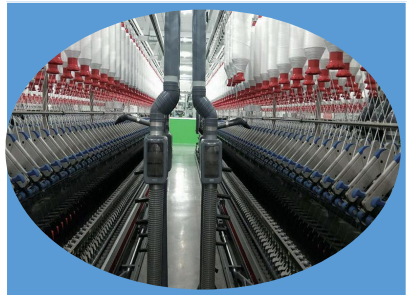

Smoothing drawing frame

Automatic doffing of roving

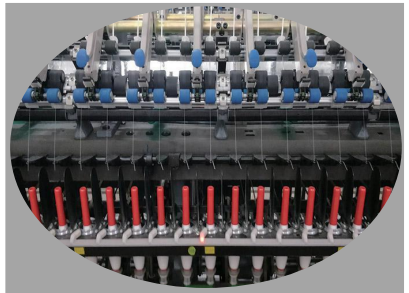

Spinning is doffing together

Longitude weft intelligent blowing suction device

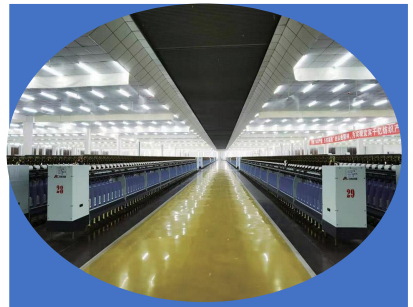

Coarse and fine combined overhead transport

Single ingot detection and alarm device

Automatic tray winder

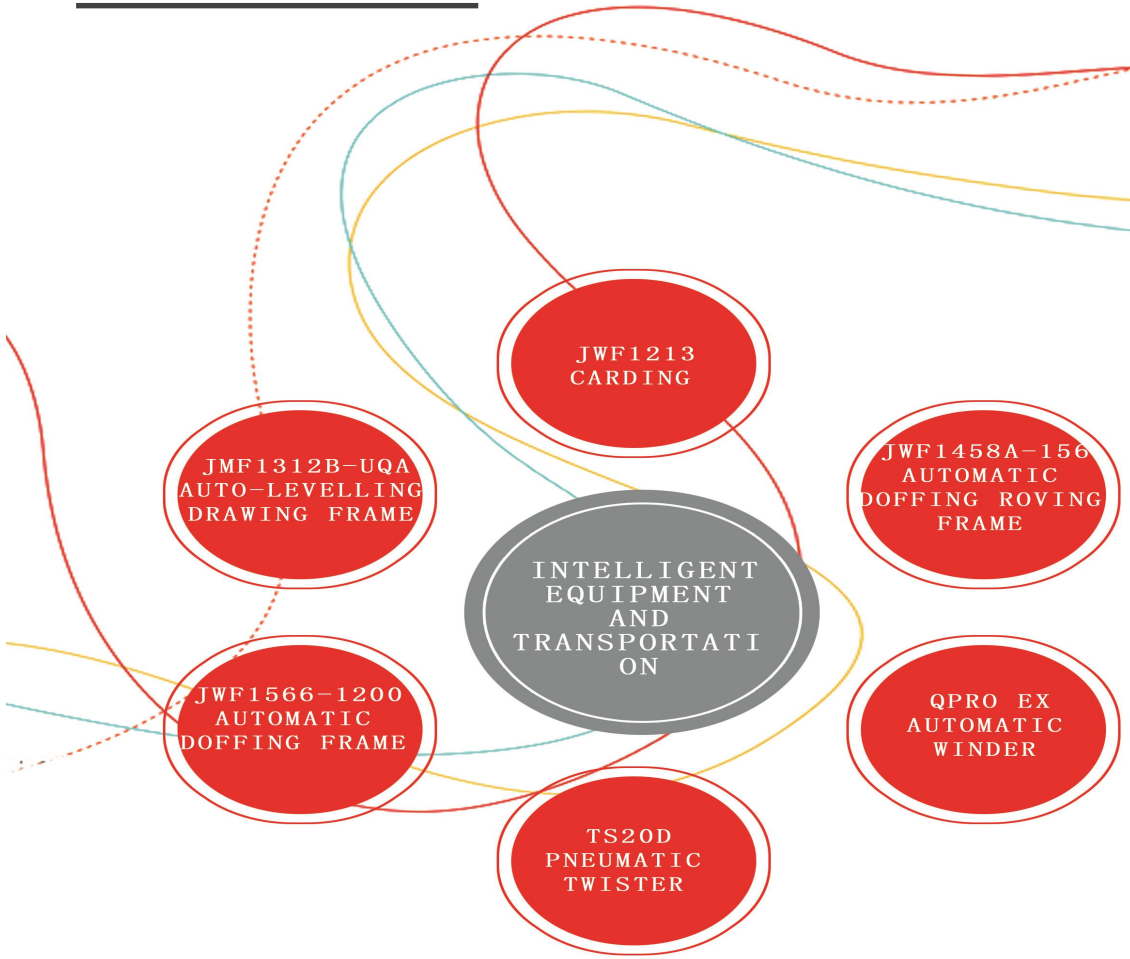

Zhejiang rifa pneumatic twister

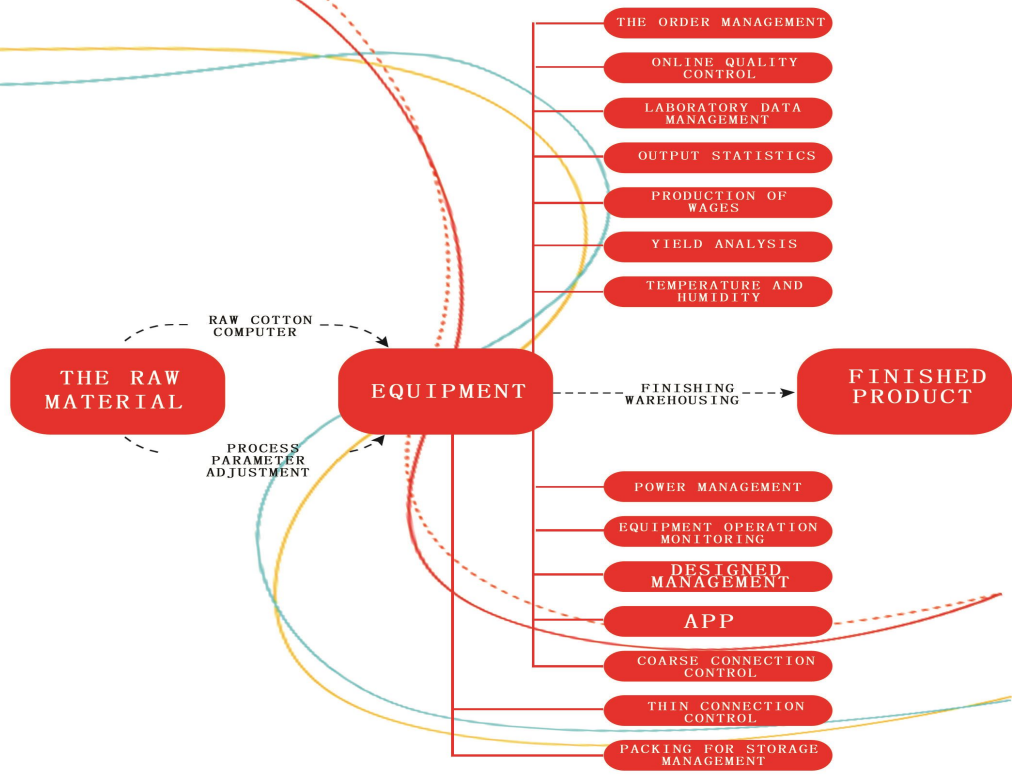

Smart factory

弘曲线业
HONGQU THREAD

Intelligence

Intelligent equipment and transportation

Intelligent management of intelligent spinning

》 Smart factory

弘曲线业
HONGQU THREAD

Digitallization

实时全面的数据采集，视觉识别，实现计算机数字化存储

Quality advantages

弘曲线业
HONGQU THREAD

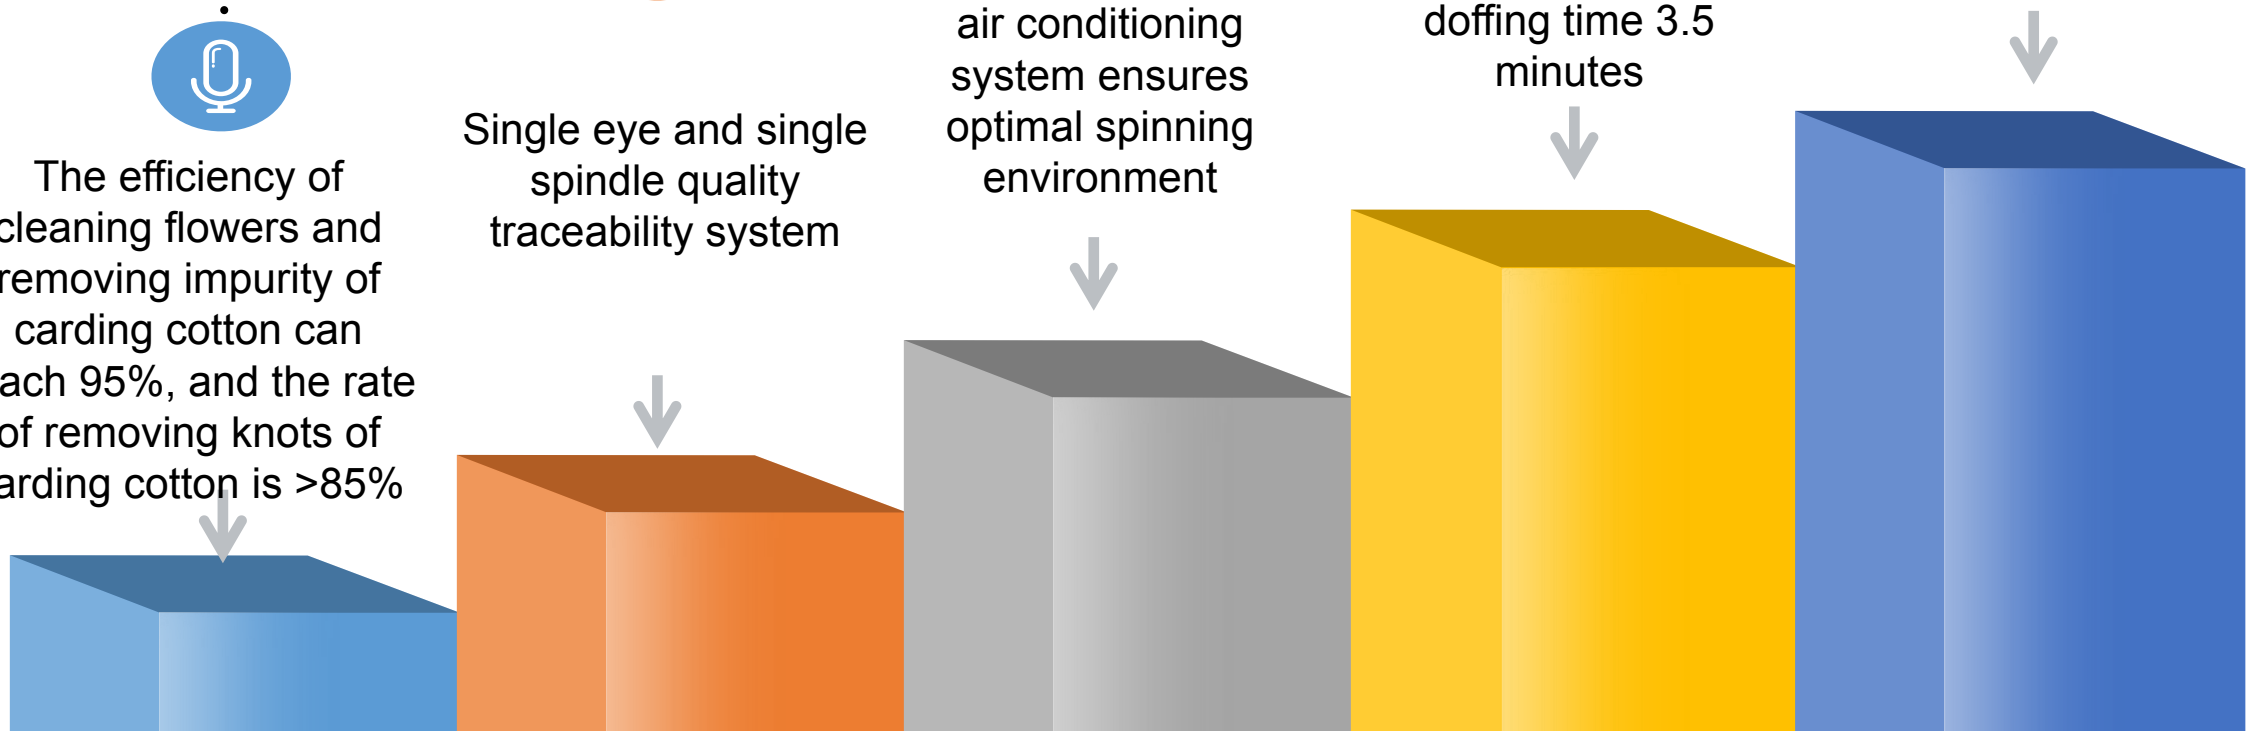

The efficiency of cleaning flowers and removing impurity of carding cotton can reach 95%, and the rate of removing knots of carding cotton is >85%

Single eye and single spindle quality traceability system

Intelligent spinning air conditioning system ensures optimal spinning environment

JWF1566 series ring spinning frame collective doffing drawing, intubation rate reaches 99.5%, doffing time 3.5 minutes

the use of precision winding double yarn bobbin feeding, high quality double yarn is the basis of the success of strands.

Advantages of Production

弘曲线业
HONGQU THREAD

We produce with type YFR210/211 of Sinopec fiber

Our production is 2500 tons per month，the total production is 30,000 tons per year

3 months Consignment stock of YFR210/211 fiber which offer by Sinopec in our warehouse , enable to remain production fully run and quality stable

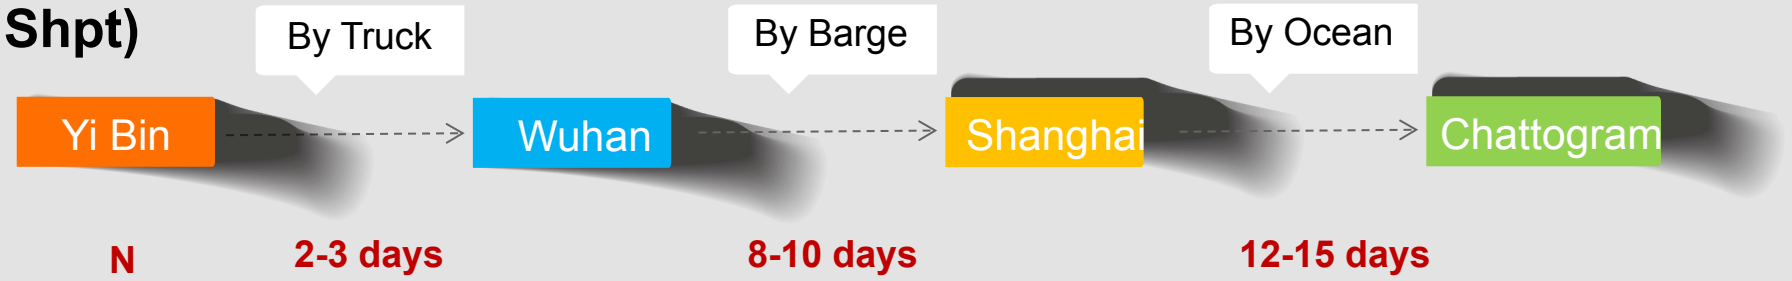

Transit options

弘曲线业
HONGQU THREAD

(From Yibin~Wuhan~Shanghai~Chattogram)

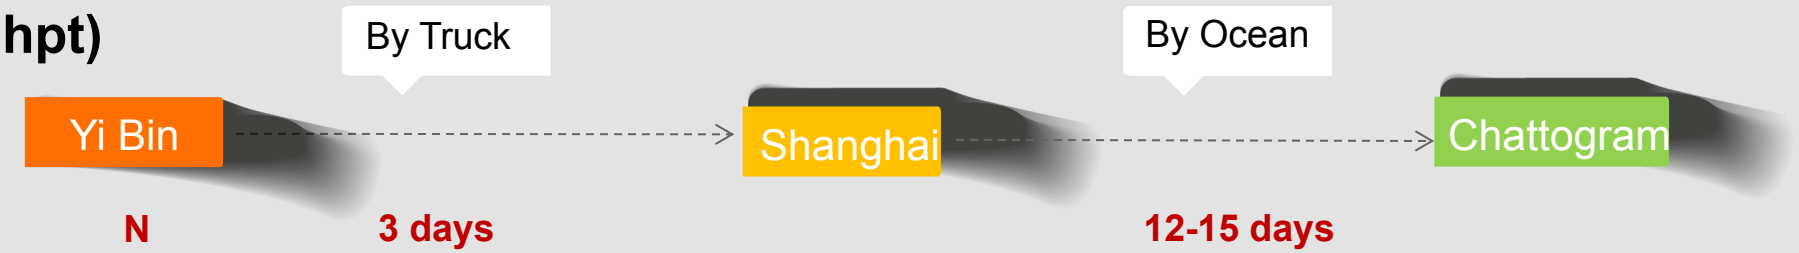

FOB Wuhan (28 days)

(For Regubar Shpt)

FOB Shanghai (18 days)

(For Urgent Shpt)

Thank you !
