

SREE BANBEE INNOVATION

An apparel buying house

WHO WE ARE

Sree Banbee *innovation is a professional apparel and home textiles sourcing company operating from Tirupur, India. We assist international buyers to source and export quality products at competitive prices and timely deliveries with AQL standards.*

We have a very good vendor base and our products are manufactured in factories that comply with global standards of modernized, integrated manufacturing practices, good prod-uct quality, workers safety and welfare. Our highly experienced team is always monitoring the sourcing, sample development,
merchandising, lab testing, quality control and logistics.

As an buying agent our experts help our buyers to get excellent quality products in an amazingly short span of time. We offer you the privilege of choosing from an unbelievable range of latest and original products which are made available to the buyers at the most competitive prices to suit their specific needs. Apart from this, experienced and competent staff with Banbe organizes prompt delivery of consignment observing the strictest quality constraints.

WHAT WE DO

We work in a ordered manner as well as our strategy is conventional. In the primary phase we comprehend our customers condition in depth, formulate a plan of action and carry out it.

SOURCING

This additionally makes it possible for the enterprise to learn more about the un-explored possibilities of sourcing the most effective garments. Banbee Innovation keeps its passion whole in line with those who initiated in sourcing.

VENDOR SELECTION

We choose a seller in accordance with the item specification and order placement and connect with sellers. We take time to find the seller that is ideal. We prefer for individuals that has got who strive to find the best and the perfect approach.

We help the buyers carry out a background check to attentively analyze the practices of the manufacturing company after which place the order. Seller choice is among the crucial success of our efforts, we choose providers and ISO accredited manufacturing companies who show cost that is competitive. We ensure the garments fulfill with the societal-environmental conformity approved by DISNEY, BSCI, SEDEX, OEKOTEX and WRAP.

PRICE NEGOTIATION

Cost negotiation is among our vital strength. The cost discussion is kept see-through and beneath the surveillance of the client. We take extra attention to keep competitiveness and transparency in regards to cost dialogue.

PRODUCT SAMPLING

At Banbee Innovation we've sampling facility that is exceptionally efficient. We now have an inhouse sampling section and trying unit which is supervised by specialists. We help buyers with samples for production and promotion quality control.

We develop layouts as per customers' specification. The customer verifies fashion and the fit together with the aid of samples. We make samples for a complete size set. After the samples are approved by the customer it becomes a standard for the remaining work. We run timely quality tests at all stages from pre production, review that is mid to postproduction.

QUALITY ASSURANCE

Banbee Innovation has embraced a universally acclaimed system of quality assess-ment referred to as the AQL (Approved Quality Level). This system helps in judging the standard of the products that are produced by categorizing and identifying the flaws. It's sent after the merchandise passes the acceptability standards of the cus-

LOGISTICS & SHIPMENT FOLLOW UP

Our logistics section manages all the records regarding transportation of the item. We post cargo and get prior approval from the customer and ensure that individuals have the appropriate transport records.The Banbee Innovation sends out transpor-tation guidance with all pertinent information on dispatch to make certain smooth delivery.

QUALITY

Delivering outstanding quality products is the way of life. Quality improvements are primarily customer driven. Quality Assurance department constantly listen to customers with a view of exceeding their expectations & finding areas for improvement. We has an excellent in-house lab facility to scrutinize & sustain necessary quality standards in each manufacturing process.

We conduct timely quality checks at all stages from pre-production, mid inspection to post-production. Quality is the hallmark of all our products. We believe in total quality management (TQM) which is a combination of quality control and quality assurance.

Banbee Innovation has adopted a universally acclaimed system of quality evaluation known as the AQL (Accepted Quality Level). This system helps in judging the quality of the produced products by identifying and categorising the defects.

OUR INFRASTRUCTURE
