The Company

It all started in Prato in 1974 when Sauro Bigagli began dealing in-stock fabrics. A few years later, in 1980, Sauro founded **Sauro Bigagli Tessuti Srl**: a rapidly expanding company specialising in 100% cotton workwear fabrics.

In 1995, **Silvia Bigagli Tessuti Srl** was born, with Silvia - Sauro's daughter - being the first in Italy to import dyed polyester and cotton fabric from abroad. This significant insight quickly led her to acquire major clients.

Today, Silvia is joined by her children **Alessia** and **Tommaso**, who continue the family legacy with passion and dedication, handling sales and purchasing our products.

From the 1970s to today, the **Bigagli family** group has experienced continuous expansion, covering various sectors such as industrial, hospitality, medical, multi-protection, fashion, and rescue.

Undoubtedly, our DNA is in textiles!
