ABOUT *us*

Vastra Exports was born from a family legacy rooted in craftsmanship, textiles, and global fashion trade. With decades of experience in manufacturing and exporting women's garments to international markets, our foundation is built on trust, quality, and consistency.

Today, Vastra Exports represents a new generation of fashion manufacturing — combining traditional textile expertise with modern silhouettes, trend-driven designs, and globally accepted quality standards.

We specialize in soulful, breathable, and skin-friendly women's wear made using premium cotton, rayon, silk, crepe, jute and sustainable blends. Our collections are designed to serve women across lifestyles — from workwear and brunchwear to vacation and resort fashion.

With strong production support, in-house sampling, and custom manufacturing capabilities, we proudly serve private labels, boutiques, retailers and importers across Latin America, Europe, Middle East and emerging global markets.

At Vastra Exports, we don't just manufacture garments —
we help brands build collections that sell, feel beautiful, and stay timeless.
