ABOUT US

At Bin Abdullah LLC, we are a leading textile sourcing company dedicated to providing high-quality fabrics and textile products to businesses and individuals worldwide.

With years of experience in the industry, we have established a strong network of suppliers and manufacturers, enabling us to offer a diverse range of textiles at competitive prices. Our team of experienced professionals has extensive knowledge of the textile industry, ensuring that you receive expert guidance and support throughout the sourcing process.

OUR SERVICES

Our services cover the entire supply chain, including **Sourcing, Product Development, Pricing, Production, and Quality Assurance.**

Sourcing

With a wide supplier network, we are capable of finding the right vendor base for all customer sourcing requirements. Our product management team works non-stop to establish new, best-in-class sources to cater to both large and small-scale orders.

Negotiation

We ensure competitive pricing by utilizing our extensive knowledge of raw materials and creative supply chain solutions across sourcing, manufacturing, and logistics. This approach maximizes your profitability in a global environment.

Product Development

Our technical experts ensure product development requirements are met with exceptionally high standards of design and quality. Every product is built from scratch to precisely match customer specifications.

Product Monitoring

We seamlessly connect all parts of the supply chain, from monitoring pre-production milestones and PO distribution to production follow-up and in-line quality checks. Customers receive status reports based on multi-stage inspections, ensuring progress meets delivery terms and requirements.

Quality Assurance

Our Quality Assurance protocol starts with auditing and selecting suppliers. We conduct pre-production checks on all materials and accessories to minimize risks. In-line inspections verify that any initial issues are corrected, and a Final Random Inspection (FRI) is performed to International Standards. We only allow the consignment to ship if it meets your exact requirements.

Supplier Compliance

Our Compliance department monitors and facilitates adherence to international standards and customer requirements. Our supplier selection criteria are strict, covering effective quality management, environmental compliance, safety protocols, and ethical business standards. We partner only with vendors certified to standards including ISO, Oeko-Tex, GOTS, SMETA, C-TPAT, and many others.
