# ABOUT EKING

Shenzhen Eking Clothing Co., Ltd. was founded in 2016 and has been deeply engaged in Alibaba International Station for 9 years. We specialize in custom apparel manufacturing for menswear brands, streetwear labels, sportswear brands, designers, and social media creators across Europe and North America.

We provide a one-stop OEM/ODM solution covering design development, sampling, production, quality control, and packaging. With strong capabilities in both fashion streetwear and functional sportswear, we help brands turn ideas into market-ready products efficiently.

Located in Shenzhen, China, our company operates a 600 m² office and a 1,100 m² production workshop. Our in-house design and sampling team can complete sample development within 7 days, helping clients move from concept to launch faster.

# WHY CHOOSE EKING CLOTHING

**Strong customization capability**

From fabric and fit to logo application and packaging, every detail can be customized.

**Streetwear & Sportswear**

We understand both fashion-driven design and performance-based production needs.

**Faster lead time**

Our delivery is typically 5–7 days faster than many competitors.

**In-house production control**

From development to sewing and quality inspection, key processes are closely managed.

**Stable Quality Control System**

Our quality control process covers material checking, pre-production confirmation, in-line inspection, measurement checking, and final inspection.

**Flexible Low MOQ Support**

We offer flexible low MOQ solutions for selected projects, making it easier for growing brands to test the market.

**Strong in Fashion & Performance Fabrics**

From heavyweight cotton and washed fabrics to performance polyester and recycled materials, we support different product needs.

**Wide Range of Decoration Techniques**

We support DTG, sublimation, screen printing, embroidery, appliqué, towel embroidery, rhinestones, and garment finishing.

# CUSTOMER SATISFACTION

## 4.8/5 Loved by 1658+ Reviewers

excellent quality. better then I even expected! nice, heavyweight, stickin g and. seams are perfect. will order again

We needed fully customised products. This manufacturer was able to pr ovide this to the standards of our techpack. The print and material quali ty was kept at high standards. They also ensured to communicate with u s throughout each step of the process. Happy with our order!

Wendy was very helpful and professional. once I showed her the mocku p she knew exactly what I wanted and assisted me in choosing the perfe ct material and patch size. I am very grateful to work with this team and I will definitely be back

Thank you,
Bouemai

Material： very good Printing Methods： high quality Technics： uniqu e Style： very good We really love the jerseys they made for us, i think w e made more than 10 collaborations with them, that's how good collabor ation they gave us. pls continue making good quality and paying atttenti on to my orders. Thanks Allen and Crystal! You guys rock!

Material： HIGH QUALITY Printing Methods： VERY GOOD Technics： UNIQUE Style： VERY GOOD we always like the quality they provide to u s, hope they can continue the good service and goood quality of their pr oducts, this way we can collaborate more orders with them

Would highly recommend to anyone working with this supplier. The proc ess was made easy with Minne who i was contacting to get my samples made. She was very attentive and easy to communicate with any issues or questions i had. Once the sample was made it only took 2 days to arri ve. I will be ordering my bulk order from this supplier. Thank you

I had a very complex jersey design and it took awhile to get it looking ho w I wanted (I certainly could be better about communication) but the fin al product is extremely detailed and I think is going to be a hit once it's o fficially for sale!

Ordered 195pcs and they finished it sooooo fast been ordering from t hem for months now and multiple bulks always AMAZING.

We have received the sample and have been very happy with the comm unication leading up to the sample and the sample themselves. Love th e quality and weight of the material and we are very keen to place our or der. Definitely recommend and will use again.

Great experience working with this manufacturer from start to finish. Co mmunication was consistent, production timelines were accurate, and t he final bulk order matched the samples in both quality and detail. The g arments feel premium and everything arrived safely after clearing custo ms. Definitely looking forward to continuing business on future collectio ns.

GREAT PRODUCT!!! Paid attention to the details described and shippin g took only 3 days. i will be working with this Manu again

Thanks Allen and Crystal! You guys rock!

When I was ordering bulk t-shirts they were very helpful as well as very p atient with me and understood exactly what I was looking for. There was very clear communication between me and the team, which made the pr ocess very smooth for both ends. Also when I was ordering samples they understood what I wanted changed from the sample to the BULK which made me feel comfortable to work with them in the future. If you need a manufacturer these are the right guys for the job.

exactly what we asked for the vendor was so sweet and knew these were for my daughters bday she made sure I got them in time. the material is high quality. very happy Thank you for helping me with this

# PRINTING & DECORATION OPTIONS

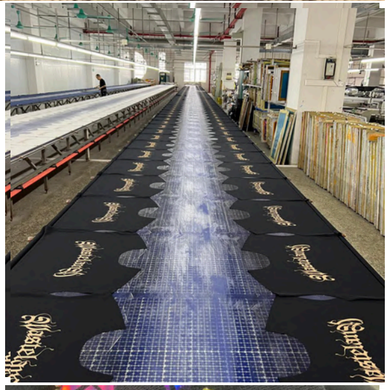

# QUALITY CONTROL SYSTEM

**Built to protect quality at every stage of production.**

## Material & Pre-Production Check

Before bulk production begins, we verify fabrics, trims, colors, artwork placement, and construction details to reduce errors from the start.

## In-Line Production Inspection

During production, our QC team checks stitching, measurements, logo execution, workmanship, and overall consistency to identify and correct issues in time.

## Final Inspection & Packing Check

Before shipment, each order goes through final inspection covering size accuracy, appearance, logo details, finishing, quantity, and packaging requirements.

# SUSTAINABLE SOLUTIONS

## 1.ECO-FRIENDLY PACKAGING

- Biodegradable packaging bags
- More responsible packaging choices for international brands
- Support for custom packaging with sustainability goals

## 2.SUSTAINABLE MATERIAL OPTIONS

- Recycled fabric options
- Eco-conscious material choices
- Fabrics aligned with sustainability-focused projects
- Support for brands looking for more responsible sourcing

## 3.RESPONSIBLE MANUFACTURING STANDARDS

- Standardized quality control process
- Long-term factory coordination
- Better production planning to reduce errors and waste
- Continuous improvement in manufacturing standards

## 4.CERTIFICATIONS & COMPLIANCE

- ISO 9001:2015
- Oeko-Tex Standard 100
- GRS fabric certification
- BSCI
