About The
Moon’s Project

Moonsproject is a company with a long history in the textile industry, dating back to 2000. In 2000, our company began with fabric production. By 2006, we had expanded our production capacity with the addition of garment units. We have continued to develop our capabilities by renewing our production facilities on a daily basis. As of June 2024, we are rebranding as Moonsproject and will continue our activities with today's innovative solutions.

Our modern production facilities enable us to create high-quality products by combining traditional textile methods with the latest technology. With 30 years of textile experience, our expert team reflects our experience in the sector to our customers at every stage. In addition, our talented designers offer customised design solutions to our customers, providing effective and cost-effective solutions to high-cost design problems.

As Moonsproject, we continue to offer the best to our customers by combining both quality and innovative solutions.

Premium Towels, Bathrobes & Bath Mats

Experience the perfect blend of luxury, comfort, and durability with Moonsproject's premium textile collection. Designed for those who appreciate quality, our towels, bathrobes, and bath mats are crafted from the finest materials to deliver an unparalleled experience.
